These are the tools you need to effectively market your library products and services.

Reach your best customers and prospects, cultivate new business partners, build brand and product awareness, and sell more goods and services.
FROM THE DIRECTOR OF SALES
Reach Users Who May Be Difficult to Meet Face-to-Face

I’m pleased to present you with our 2022 Library Media Kit. Inside you will find a broad array of print and online marketing tools, all designed to help you and your organization reach your best customers and prospects, cultivate new business partners, build brand and product awareness, and move more goods and services.

When it comes to libraries and the communities they serve, we’ve got you covered.
Our publications, Computers in Libraries, Information Today, and Online Searcher, offer you the easiest and possibly the very best opportunity to connect with public, academic, special, and government librarians; information professionals; online researchers; industry consultants; content managers; and business and publishing executives.

When it comes to the tools you need to deliver your message, you can’t do better.
We offer print and online advertising in our publications and on our websites, white paper sponsorships, live-streaming webcasts, specialized business and library-driven enewsletters, and the opportunity to display your products and discuss your services in front of our library conference attendees throughout the year.

The products, technologies, and services we cover are virtually endless and are the ones your customers and prospects specify, budget for, and purchase on a regular basis.

Here are just a few of the products, technologies, and services we’ve covered in Computers in Libraries, Information Today, and Online Searcher:

- 3D printers
- authentication solutions
- automation systems
- cloud-based IT and information storage systems
- digital collections
- digital storage equipment
- discovery systems
- document delivery systems
- document imaging systems
- ebooks
- handheld and mobile systems
- library automation systems
- makerspace equipment
- OPAC systems
- podcasting equipment
- streaming media
- web-scale management systems

As you look through this media kit, please do so with an eye for the many marketing opportunities available to you, and feel free to contact me to move the conversation forward.

All the best for a prosperous and rewarding 2022.

With the publications librarians and info pros love to read

Information Today
The Newsmagazine for Users and Producers of Digital Information Services
Brandi Scardilli, Editor

*Information Today* (IT) is published nine times a year and keeps information professionals in the know about news and industry trends that shape our world. *IT* offers hard-hitting features that provide insight and analysis into the world of libraries and info pros, while delivering updates about the latest innovative services and products. *IT* tackles the news from all angles to make sure its readers are kept informed on all fronts.

*Information Today* magazine is also available as a PDF (with live links).

Computers in Libraries
Complete Coverage of Library Information Technology
Dick Kaser, Executive Editor

*Computers in Libraries* (CIL) is published 10 times a year and serves as a showcase and forum for library tech professionals to share their success stories. The magazine’s focus is on practical applications of technology in public, academic, corporate, special, and school libraries.

**CIL** is the librarian’s only independent, peer-to-peer resource on library systems. It’s all tech, all the time.

Be a part of the **CIL** community by joining us at CIL ’22, Internet Librarian, and Internet Librarian International.

*Computers in Libraries* magazine is also available as a PDF (with live links).

Online Searcher
Information Discovery, Technology, Strategies
Marydee Ojala, Editor-in-Chief

*Online Searcher*, published bimonthly, is the definitive voice for information professionals engaged with the online search world. Written by info pros for info pros, it provides information and insights on managing online research projects, conducting successful searches, evaluating new technologies, assessing the value of resources, and warning of search pitfalls. It shares search tips and techniques from experts in the field and publishes opinion pieces from well-known thought leaders.

*Online Searcher* delivers practical considerations for those searching on the web and in traditional subscription databases. It reviews emerging technologies and themes in the library and information field. Its readers use *Online Searcher* to become informed about their options.

*Online Searcher* magazine is also available as a PDF (with live links).

**Computers in Libraries**

**Editorial Topics 2022**

**Building a Digital Infrastructure**
Proper case studies, best practices, and how-to stories on any tech-enabled effort that has helped your library achieve its purpose, vision, mission, or mandate by building a better infrastructure.

**Jan/Feb**
**Network Security**
We live in a digital world full of digital threats. How are you coping with malware, denial-of-service attacks, ransomware threats, cloud-service disruptions, backbone vulnerabilities, spam, phishing, and myriad other threats? And what are you doing to help keep patrons safe and their information private?

**March**
**Library Systems**
Library systems are the backbone of today’s libraries. Tell us what you have been doing with your ILS, cloud-based platform, CMS, institutional repository, Wi-Fi network, social media marketing platform, or other back-office library system, with an eye on solving today’s challenges and tomorrow’s needs.

**April**
**Web Services**
Today’s web offers options for delivering services without having to invest in IT infrastructure. Discuss your experience with cloud-based apps and popular information-sharing platforms to achieve operational efficiency, reduce costs, and reach service goals. What new web services are you offering patrons remotely?

**May**
**Streaming Media**
It’s now possible to stream everything, from ebooks to video tutorials. Share your public library’s experience with circulating streaming media titles to the general public. Academic libraries, tell us about streaming educational materials to students. And everyone, explain how you are streaming media for outreach.

**June**
**Open Access (OA)**
It’s been a long time coming, but OA has matured, bringing its own set of infrastructure issues. How is your library evaluating and switching over to the new OA publishing deals? How are you assuring that your scholars get digital access to OA materials? What are the issues and answers for digital repositories, search systems, and discovery tools? And don’t forget open source solutions.

**Jul/Aug**
**Crazy-Fast Fixes**
Libraries are typically strapped for both staff time and money, but tech issues arise. What do you do to fix bugs and broken systems? How do you make digital stuff work better, improve workflows, or deliver an improved digital experience on a dime or just in time? Share tools, tips, and tweaks for delighting patrons or making things better for staff.

**September**
**Learning Platforms**
Schools and libraries are coming closer together, but their siloed infrastructures can get in the way. Tell us about your efforts to marry learning and lending systems, embed library instruction within course management platforms, bridge gaps between curriculum and collections, or support and engage faculty members, students, and researchers.

**October**
**Content Collections and Discovery Systems**
No library infrastructure is complete without digital collections and the search systems that empower retrieval. Tell us about your experience with digital libraries, research databases, ebooks, and other digital content collections or discovery services. What have you done to digitize or improve access to your library’s own special collections?

**November**
**Data Management Solutions**
Data, data everywhere. Tell us how your library collects, archives, and maintains data repositories. Describe your experience in collecting and cataloging datasets. Share your case studies on data mining or using AI. Also talk about your experience with analytic tools and library metrics.

**December**
**Outputs, Outcomes, and Outlooks**
Send us your case studies, best practices, and strategic plans for improving your library’s tech infrastructure to meet current requirements and future needs and to assure resilience in the event of a disaster. Report your results. Share your vision.

**Any Topic, Anytime**
Tell us your story. We are always looking for articles on how you selected and deployed devices or systems, rolled out new tech-based solutions, and achieved desired outcomes via a technology framework, as well as case studies about OPACs, ILSs, and other library platforms. Articles about deploying tech in K–12 schools are also always welcome.

**Editorial content focuses on vertical markets:**
- Public Libraries
- Academic Libraries
- Research and Special Libraries
- Government Libraries
- Archives and Museums
- Schools

**Routinely in every issue:**
- Library Platforms and ILS Systems
- Ebooks, E-Resources, and Ecollections
- Digital Strategies, Web Tools, and Mobile Solutions
- EdTech

*Please Note:* In addition to ITI-hosted conferences, our library publications are distributed at other notable industry events such as ALA, SLA, AIIP, PLA, AALL, ACRL, and others. Ask your sales representative for a current list.
